

► Feature:

1. Use AC110V-220V AC power supply
2. Can charge 24 receiving units at the same time
3. Equipped with telescopic rods and pulleys for easy movement
4. With charging protection and indication functions

► Specification:

Power supply	AC110V-220V
Power	66W
Number of charging digits	24
Maximum charging current per unit	4.220mA
Charging time	about 2-2.5 hours
Status indication light	Red light on - charging Green light - charging completed
Working temperature	0°C-40°C
Size	630×370×290mm
Weight	10.5kg (excluding battery)
