

► Feature:

1. The microphone pole is equipped with a red LED aperture working indicator light, which can display the speaking status.
2. The conference unit will automatically illuminate when turned on, effectively preventing misoperation and making the operation intuitive and simple.
3. All buttons in the conference unit adopt high-quality, long-life, moisture-proof and dust-proof switches.
4. The all-metal base has an exquisite and elegant countertop structure, which is ergonomic and highly modern.

► Specification:

Directional characteristics	cardioid unidirectional (capacitive)
Frequency response	50Hz~17KHz
Sensitivity	-45dB/±3dB (1KHz)
Low frequency attenuation	125Hz 6dB/OCTAVE
Output impedance	200Ω
Maximum sound pressure	135dB SPL 1KHz At1% T.H.D
Signal-to-noise ratio	66dB.1KHz AT PA
Dynamic range	111dB.1KHz AT MAX SPL
Power supply	DC 48V
Wire length	5m (parallel type)
Size (L×W×H)	157*106*57MM
Weight	800g
Color	black
Microphone pole	420MM
